

# autocomplete *(au-to-com-plete)*

## Definition

v. a feature in software that predicts and suggests text or data based on what the user has already typed.

## Example Sentence

The **autocomplete** feature in the search engine helped me find what I was looking for more quickly.

## More Example Sentences

While typing my email, the **autocomplete** function filled in the recipient's address automatically.

## Synonyms

predictive text; suggestion; completion
