

macrophages *(mac-ro-phages)*

Definition

plural n. Large phagocytic cells found in stationary form in the tissues or as a mobile white blood cell, especially at sites of infection.

Example Sentence

Macrophages play a crucial role in the immune system by engulfing and digesting cellular debris and pathogens.

More Example Sentences

The presence of **macrophages** in the tissue indicates an ongoing immune response.

Synonyms

phagocyte; immune cell; white blood cell

Antonyms

pathogen; bacteria; virus
